LOGIN SIGNUP - 003	Sign up form tweaks	Frontend	Need tweaks to sign up form	Completed	
LOGIN SIGNUP - 004	Need CNAME + Real domain	Frontend + Backend	Need app.growtoro.com instead of current link. We need to make sure this CNAME is added and its connected to our server + databases.	In Completed	https://prnt.sc/AJw_Ob6oeA2g
LOGIN SIGNUP - 005	Wrong password notification not working	Frontend + Backend	When you sign in with wrong password, need a notification	Completed	
LOGIN SIGNUP - 006	Forgot your password bug	Frontend + Backend	Need to fix some things on forgot your password	In Completed	(Click here) to resend the email link doesn't work https://prnt.sc/DsDJqsDdvBVy
LOGIN SIGNUP - 007	How sign up flow needs to work with verification screen showing after sign up, and then verification email being sent and link in the email	Frontend + Backend	When someone signs up, need an email sent to them asking them to verify their address. Once they click the verify link, they log right into the dashboard. We will use Mailchimp for this, our account has a transactional email plan. You can log into our account, use our keys and API and connect everything to our server/platform.	Completed	
LOGIN SIGNUP - 008	Loggen in user api	Backend	New API needed for getting logged in the user info. I want to send a request using my tenant id and access token and it should return the user info(name, email, tenant id, timezone, profile picture etc) as response.	Completed	
LOGIN SIGNUP - 009	Profile update api	Backend	Need a profile update API, currently, we can just update the password.	Completed
